

Kostas Komninos

Kostas Komninos is the General Manager of DAFNI Network of Sustainable Greek Islands, a Local Government Development Organization with 56 Greek municipalities, solely from islands, as shareholders. He has significant experience in clean energy, environmental resource management and local islands development projects especially in the Greek and European islands and has been working the last decade to narrow down the gap between policies designed at the EU level and projects realized locally. He is currently spearheading the national activities of the EC initiative “Clean energy for EU islands”, working towards the decarbonization of 6 Greek among 30 EU islands. He has served as coordinator of the Smart Islands Initiative and Vice President of FEDARENE on Smart and Sustainable Islands, but also as a non-executive member in the Board of Directors of the Hellenic Electricity Distribution Network Operator S.A. (HEDNO), with a portfolio to promote innovative projects in the Greek islands, while also as member of EURELECTRIC’s “Network of Experts on Islands’ Energy Systems”.
